A Judicious Inquiry

A well known traveling man who visits the drug trade, says he has often heard druggists ask a customer, who wished to buy a cough medicine, whether it was for a child or an adult and if for a child, they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it and for colds, croup and whooping cough it is unsurpassed.—adv.

MY NEW STENOGRAPHER

I have a new stenographer—she came to work today.

She told me that she wrote the Graham system;

Two hundred words a minute seemed to her, she said, like play;

And word for word at that—she never missed 'em.

I gave her some dictation—a letter to a man,

And as I now recall it, this is how the letter ran:

"Dear Sir—I have your favor, and in reply would state

That I accept the offer in yours of recent date.

I wish to state however, that under no condition

Can I afford to entertain your free-lance proposition.

I shall begin tomorrow to turn the matter out;

The copy will be ready by April 10th, about.

Material of this nature should not be rushed unduly.

Thanking you for your favor, I am, yours very truly,"

She took it down in shorthand and with apparent ease and grace;

At last, I thought, I have a girl worth keeping 'round the place.

She didn't ask me to repeat nor jump up in a hurry

I said, "Now go and write it out, but don't be in a hurry."

The Underwood she tackled—now and then she hit a key,

And after thirty minutes, this is what she handed me;

"Dear Sir—I have the fever, and on the fly I sit,

And I except the offer as you have reasoned it.

I wish to say, however, that under no condition

Can I for to take your free lunch proposition.

I shall be in tomorrow to turn the mother out.

The cap will be red and cost \$10.00 about.

Material of this nation should not rust N. Dooley,

Thinking you have the fever, I am, Yours very truly."
